

NR-19 Field Brief and Well List

North Ridge Unit - mature oil field production allocation and reservoir surveillance package. Allocation month: 2026-05. This file provides field context, well status, allocation groups, and field-level monthly totals used for source reconciliation.

Project Register

record_id	field_id	asset_area	production_month	operator_district	allocation_group	source_role
PR-001	NR-19	North Ridge Unit	2026-05	Midland Basin North	G-01	field brief
PR-002	NR-19	North Ridge Unit	2026-05	Midland Basin North	G-02	surveillance package
PR-003	NR-19	North Ridge Unit	2026-05	Midland Basin North	INJ-A	water injection support

Well List

record_id	well_id	well_type	reservoir_zone	lift_type	allocation_group	datum_tvds_ft	status	source_note
WL-001	NR-101	producer	Upper/Lower Sand	gas lift	G-01	7000	active	commingled producer with daily gas-lift deduction
WL-002	NR-102	producer	Upper Sand	natural flow	G-01	7000	active	natural-flow producer tied to separator B
WL-003	NR-103	producer	Lower Sand	gas lift	G-02	7050	active	intermittent gas-lift adjustments during May
WL-004	NR-104	producer	Upper Sand	shut-in	G-02	7000	shut-in	zero-rate test only
WL-005	INJ-11	injector	Upper Sand	water injection	INJ-A	7000	active	upper sand injection support
WL-006	INJ-12	injector	Lower Sand	water injection	INJ-B	7050	active	lower sand injection support

Field-Level Monthly Totals from Field Brief

record_id	production_month	measurement_type	source_value	unit	comparison_note
FT-001	2026-05	field_oil_total	37900	bbl	compare to MA-004 in NR-19-002
FT-002	2026-05	field_water_total	16550	bbl	compare to MA-004 in NR-19-002
FT-003	2026-05	field_gross_gas_total	153400	Mscf	compare to MA-004 in NR-19-002
FT-004	2026-05	field_gas_lift_total	33070	Mscf	compare to MA-004 in NR-19-002
FT-005	2026-05	field_net_gas_total	120330	Mscf	compare to MA-004 in NR-19-002
FT-006	2026-05	field_injected_water_total	30400	bbl	compare to INJ-003 in NR-19-007

Source Restrictions

record_id	restriction_text
SR-001	Use supplied files only for reconciliation.
SR-002	Do not select final accepted production or injection volumes when supplied files disagree.
SR-003	Do not infer missing pressure, gas-lift, choke, datum, PVT, or test-duration values.
SR-004	Do not add reserve estimates, forecasts, allocation approval, workover recommendations, or ready-for-reporting language.
